ODACIDE

Non toxic concentrate Odour Neutralizer

Odacide is a concentrated odour neutralizer that can be diluted up to 500:1

See your Hi - Chem Representative for directions

Best results are achieved through pressurized spray systems

Handling Directions:

- Care should be taken to avoid splashes into eyes. If it occurs flush with plenty of cold water. If Irritation develops get medical attention. Wash any spillages of the concentrate off the skin immediately and remove any contaminated clothing.
- If inhalation of vapour is uncomfortable seek fresh air immediately. If breathing becomes difficult get medical attention.
- If accidentally ingested. Do not induce vomiting. Dilute substance by giving a child 1/2 to 1 cup of water or 1 to 2 cups of water to an adult. Get medical attention immediately.
