

DUAL 100

TUTTI-FRUITI

Certified to kill gram positive and gram negative bacteria such as staphylococcus aureus and escherichia coli when diluted with 200 parts water.

DIRECTIONS:

TOILET AND SHOWER AREAS: Dilute 1 part Cyndan Dual 100 with 100 parts of water and apply it to the surface by brush, mop or spray application. This application will kill the bacteria instantly therefore reducing the cause of odour and resulting in a clean and hygienic environment.

GENERAL DISINFECTION: As a general disinfectant dilute 1 part Cyndan Dual 100 with 150 parts of water. This dilution may be applied to food and drink processing equipment, animal pens, bar areas, food freighting vehicles, killing floors and boning rooms, brewing room floors and walls etc.

MOULD AND MILDEW CONTROL: Is best tackled with a solution of Cyndan Dual 100 diluted 1 part with 100 parts of water. Clean the area with this solution, rinse then apply Cyndan Dual 100 again and leave it to dry. A prolonged control of this unwanted growth will result.

SAFETY: Avoid contact with eyes.

FIRST AID: If swallowed, do NOT induce vomiting, give a glass of water and seek medical attention. Contact the Poisons Information Centre (13 11 26 Australia; 0800 764 766 New Zealand). If in eyes, hold eyelids open and flush with water for at least 15 minutes.
